Permit number EPR/DP3890SL

Introductory note

This introductory note does not form a part of the permit

The following notice, which is issued pursuant to regulation 20 and Part 1 of Schedule 5 of the Environmental Permitting (England and Wales) Regulations 2010 S.I.2010 No. 675 (the Regulations), gives notice of the variation of an environmental permit to operate a regulated facility.

An original waste management licence was issued in 2007 which essentially allowed the storage and treatment for recycling of dry recyclables, packaging and metals. This licence (now permit) was varied in 2009 to allow some storage of recyclables outside of buildings. The current variation application is to increase the annual throughput of waste to 100,000 tonnes, to increase maximum storage to 7500 tonnes and to add new, non-hazardous, wastes.

Schedule 1 of this notice lists any deleted conditions, Schedule 2 lists any amended conditions, Schedule 3 lists any conditions that have been added and Schedule 4 shows any changes to the plan.

The status log of a permit sets out the permitting history, including any changes to the permit reference number.
